

Mechanical and electronic measuring and test instruments

					Calibration of testing equipment	30
					Vernier callipers Vernier depth gauges Measuring tool sets Micrometers	31
					Gauge blocks Test pins Gauges	32
					Dial gauges, lever gauges, measuring instruments, depth measuring instruments Thickness measuring instruments Quick callipers, centering devices Bore hole and comparison measuring instruments	33
					Measuring stands Measuring tables	34
					Marking and height measuring instruments, 3D measuring machines Optical measuring systems V-blocks, angle standards Measuring plates Concentricity test instruments	35
					Small gauges Feeler gauges Levelling films Hole gauges	36
					Taper measures Laser distance measuring instruments Scales, rules	37
					Squares Protractors Spirit levels, levelling devices	38
					Stop watches Speedometers Travel, route and piece counters Electronic measuring instruments Connecting cables and measured data transmission systems	39
